FOR WARRANTY OR TECH CONCERNS EMAIL: webmaster@omixsupport.com
1. Remove doors from vehicle as instructed in factory supplied user manual.

**NOTICE**  
Door removal may require assistance from another person.

2. Loosely install Hinge Pins on Tube Doors using supplied M8 hardware.

3. Using caution, slowly insert Tube Door in door hinges and reinstall factory door nuts.

**NOTICE**  
Tube Door installation may require assistance from another person.

4. Close Tube Door and tighten Hinge Pin hardware.  
   Install Check Strap using shortest setting.  
   Cycle Tube Door open and closed to ensure Hinge Pins are properly aligned and fully seated in door hinge.

**NOTICE**  
If door does not close after Hinge Pin alignment, loosen two M6 bolts securing latch box to door. Adjust latch box position until door closes properly.
