

INSTALLATION INSTRUCTIONS

COVERCRAFT 'UNIVERSAL' PET PAD SEAT PROTECTOR

Determine which attachment straps will best secure the Pet Pad Seat Protector to your particular seat.

Place the Pet Pad Seat Protector over the car seat.

Push the plastic anchor(s) on the elastic band(s) (black side) through the seat crevice.

Attach the upper elastic or webbing straps around the seat back or behind the corners of the seat back.

Adjustable type headrests can be used to secure the top section of the Pet Pad Seat Protector by raising and then lowering the headrest onto the Pet Pad Seat Protector or straps.

Attach lower straps to the bottom or underside of the seat. Use the side release buckles or elastic straps for attaching to any convenient place.

Seat belt access is provided by the opening (bench seat Pet Pad Seat Protector version). Simply pull the seat belt through the slot and use as normal. Bucket seat Pet Pad Seat Protector version seat belt use is normal.

Washing instructions: Hand wash in cold water with a sponge or brush and mild soap. Rinse, hang dry. No bleach. No Iron.
